

Classes 904 and 905 Introduce a Healthy Food Fundraiser

from Anthony McMahon

PS 3 is offering Vegie Fresh for \$10!

RD Fresh, creator of VegieFresh, is proud to sell products that save our clients money, but we are even more proud that our products help save the planet. With the success of our RD Fresh product line for commercial applications (Restaurants, Hospitals, Food Service), we wanted to find a way to give the same benefits to every household. We realized that fruit and vegetables accounted for the largest losses in consumer food waste and made this our focus. Using our 100% natural mineral mix we created VegieFresh!

We hope you enjoy using our product and enjoy eating more of your delicious fruit and vegetables.
